When the Champions first came together four key themes emerged which direct our attention and our focus when telling the Coventry and Warwickshire story…

**Event Central**
This draws on our central location at the heart of the UK and a great wealth of cultural, sporting and conference facilities which draw millions of visitors to the area every year and making a significant contribution to the economy.

**Innovation**
Our Universities are world-renowned and are home to more than 50,000 students. Knowledge transfer partnerships between business and education is just one of the reasons we are home to global brands such as JLR, Aston Martin and PSA Peugeot Citroën.

**Connection**
When it comes to the question of location, Coventry & Warwickshire couldn’t ask for more, at the very centre of the UK, with a perfect balance between urban and rural living, proximity to Birmingham and just 50 minutes from London, our connectivity is unrivalled.

**Peace & Reconciliation**
The area boasts the world-renowned Coventry Cathedral, symbol of its continuing role promoting peace and reconciliation. Coventry is a beacon of forgiveness and many have sought guidance and inspiration from the City’s experience.

Coventry and Warwickshire has tremendous opportunities for growth, development and greater prosperity for those who live and work here.

However, in a changing world we have to do things differently to get the results we want. We need a fresh way for the public and private sectors to work together, we need resources and not just the public sector to get things done and we have to compete nationally and internationally like never before.

We have a compelling new story for Coventry and Warwickshire – together we need to tell it and sell it.
